

## Job Description

**Job Title:** Lead School Nurse (RN)

**Position Code:**

**Job Classification:** Exempt

**Supervisor:** Principal & Supervisor of Health Services

**Pay Grade:** 38

**Contract Length:** 195 Days

### Job Summary

Position is responsible for performing specialized professional nursing care, providing health care services to students and staff, and improve attendance by reducing time lost due to medical problems. Position assists with developing division wide standardized procedures; acts in a lead role to school nurses regarding all students (grades PK-12); and develops/conducts in-service training to school nurses regarding current, evidence based practices, techniques and procedures. Position organizes the health clinic at the assigned school; performs and interprets health screenings and medical examinations; assesses student health needs; administers emergency care / first aid treatment; provides health counseling; and conducts related workshops. Provide a safe and healthy environment in order to maximize students' potential to learn.

### Essential Duties

1. Organizes the health clinic at the assigned school and supervises the daily activities of assigned treatment nurses and clinic assistants.
2. Assists the Supervisor of Health Services with developing division wide standardized procedures for the health care of all students.
3. Acts in a lead role to school nurses throughout the division in assessing, evaluating, and developing/implementing care for all students.
4. Develops and conducts in-service training for school nurses regarding current nursing techniques and procedures for all students.
5. Assists families and students in being accountable for their health status and improving attendance.
6. Provides direct nursing care to students and staff by administering medication, immunizations, first aid, emergency health care, and nursing care prescribed by a medical provider; and accompanies students to the hospital as necessary.
7. Observes students on a regular basis to monitor illness and provide early detection of communicable diseases, child abuse, substance abuse, mental illness, depression, eating disorders, chronic illness, and physical defects; makes referrals to other professional staff members and community agencies as needed; and communicates findings to parents/guardians as appropriate.
8. Improve attendance by reducing time lost to illness and injuries.
9. Reports suspected cases of child abuse and neglect through the proper channels.
10. Serves as liaison between the school and family physicians to promote effective patient case management.
11. Enforces established infection control policies and procedures on the exclusion and readmission of students with infectious and contagious diseases.
12. Functions as the Synergy Help Desk for Nurses/Health Services. Provides Synergy orientation for all health services staff, trains all new health services staff for Synergy use.
13. Assists Supervisor of Health Services in developing and providing classroom orientation for all new hires to health services.
14. Maintains and develops Synergy handbooks for clinic use.
15. Assists Supervisor of Health Services with maintaining clinic reports using Microsoft programs.
16. Covers the duties of the Supervisor of Health Services when absent: Covers call during the evening and morning hours for health services staff, makes daily assignments of itinerate staff and assists all staff as needed.
17. Assists Supervisor of Health Services in trouble shooting Synergy health computer issues, collaborates with technology department with Synergy updates.
18. Provides health counseling to individual students and parents/guardians regarding disease, emotional distress, pregnancy, and other health related issues as appropriate.
19. Serves as a resource to teachers and staff at the assigned school regarding the health needs of students.

20. Participates in school based committees regarding the health and wellness of students to include crisis team and the substance abuse team.
21. Provides health educational materials and presents at workshops to students, staff, and parents/guardians on such topics as first aid, sound health/nutrition, eating disorders, Bloodborne pathogens, and proactive strategies for achieving and maintaining good health in children.
22. Ensures that sanitary standards of the school's health clinic are being met and maintains OSHA standards regarding bloodborne pathogens and other potentially infectious body materials.
23. Assists school personnel with inspecting the assigned school for health/medical hazards; and recommends appropriate corrective action.
24. Maintains proper documentation and health records on all students within the assigned school, prepares/submits reports as required, and utilize the nursing components of the ESIS computer system.
25. Complies with laws, regulations, protocols, and School Board policies/procedures as they apply to school health services.
26. Requisitions needed supplies and equipment for the health clinic at the assigned school.
27. Models nondiscriminatory practices in all activities.

(These are intended only as illustrations of the various types of work performed. The omission of specific duties does not exclude them from the position if the work is similar, related, or a logical assignment to the position.)

### **Other Duties**

1. Maintains professional competence and keeps abreast of new developments in the health field.
2. Performs any other related duties as assigned by the School Principal & Supervisor of Health Services or appropriate administrator.
