Many Moons

Native Americans had special names for every full moon of the year. One name for the June full moon is the "Moon when the Buffalo Bellows."

THE PERFECT PICNIC GUEST.

The pangolin (or "scaly anteater") is a shy and elusive native of Asia and Africa that typically sleeps during the day and hunts at night, using its powerful claws and long, sticky tongue to unearth and devour as many as 70 million ants and termites a year. Invite a pangolin to your next picnic for insect control duty!

ANIMAL APPETITES

DON'T 4GET!

Take at least
ONE

**FRUIT or
VEGGIE**

and at least
THREE items total
so your meal
counts as a
complete lunch!
