April was a short month due to Spring Break and then Student Growth Assessments for two weeks after we came back from Spring Break. I am including a couple events that took place before Spring Break. For Dr. Seuss’s birthday our Principal (Barbara Nagel) and Assistant Principal (Jodi Moore) dressed for the occasion and we had book fair!
2nd graders used books in the library to do research on animals.
4th graders used World Book Online to research explorers and their roles in westward expansion.
After coming back from Spring Break the library was set up for Student Growth Assessments and SOL testing. I miss my tables, but my students and I love having access to the computers in the library!
Just had to share this picture to put a smile on everyone’s face! One of my kindergartners using Pebble Go. She put tissues on her ears because she said the headphones were hurting😊
