

Dear Parents & Guardians,

Thanks for taking a few minutes to read this short letter. You've received it as part of Sprint's 1Million Project: a bold mission to provide 1 million devices and internet access to 1 million high school students across America who do not have internet access at home.

We hope you will allow your child to join the 1Million Project. If allowed, they will receive a free wireless device and free internet connectivity during the time they are in high school. All we need from you is your approval (see the attached consent form). There are absolutely no required costs to your family and we will not capture any personal information about your family or your child. Our purpose in providing this support is to help ensure your child is able to study, learn, explore and complete their schoolwork from home.

We know you care deeply about your children and are working hard to help them achieve a promising future. We get it. Most of us here at Sprint and at the 1Million Project are parents too, and, like you, we think day and night about how best to prepare our children for what's ahead.

Also like you, we believe in hard work and in potential. We believe all students, like yours, are curious, want a brighter future and are willing to work hard to earn it. We also believe students deserve access to the right tools to achieve success. We believe potential is everywhere, but opportunity is not.

These beliefs are why we've partnered with your school district and community to offer Sprint's 1Million Project. Your child's future will be brighter if they have the tools and access they need to succeed. And we're here to help. We promise not to be pushy about Sprint's products – that's not our aim here. When your kids win, you win, your school wins and we all win.

We hope you allow your child to join this free program - please feel free to call us at 866-414-3225 with any questions or concerns.

Warm regards,

John Branam
Executive Director, Sprint 1Million Program
