

Mini Grants Available to Teachers for Environmental Projects

Want to know how to help a teacher or youth leader find free money for an environmental project? Encourage them to apply for the askHRgreen mini grant.

The environmental education mini grants of up to \$500 can be used for environmentally-themed projects, whether it's to fund a portion of a project or the entire thing.

Possible project topics include:

- Waterwise landscaping
- Properties of fats, oils and grease
- Water conservation
- Recycle/reuse

There is no deadline for applications, and they're accepted year-round as long as funding is available. Grants are limited to one per classroom per fiscal year (July 1 – June 30). The school principal or organization's director must review and approve the application before it is submitted.

We offer environmental education mini grants for up to \$500.
