

SUPER READERS UNITE

3RD QUARTER READING CHALLENGE

Let's read together - minute by minute!

Students and families are invited to flex their reading superpower in February and March by participating in a fun and flexible reading challenge.

The goal is simple: read as many minutes as you can and enjoy great books along the way!

How it works:

- Students track minutes read daily and book titles on the digital reading calendar from the school.
- Calendars are submitted to the classroom teacher at the end of each month.
- At the end of March, students will be recognized and awarded for their participation.
