I. PURPOSE

The purpose of this IFB is to solicit sealed bids from qualified bidders to provide New and Retreaded Tires to the NNPS School Division.

II. BACKGROUND

Newport News Public Schools is the ninth largest school district in the Commonwealth of Virginia. NNPS is an urban school system educating approximately 29,786 students in 3 early childhood centers, 24 elementary schools, 7 middle schools, 5 high schools, and 1 middle/high combination school. NNPS also provides programs for at-risk students in addition to special education programs. A listing of all NNPS locations may be accessed via the official website at <https://sbo.nn.k12.va.us/schools>. NNPS employs approximately 4,688 employees in a variety of educational, leadership, professional, technical, clerical, service, maintenance, and support positions.

III. STATEMENT OF NEEDS

A. Overview of Requirements:

1. Scope of Work

- a. Newport News Public Schools (NNPS) is seeking to solicit sealed bids from responsive and responsible bidders to establish a firm, fixed price contract with a responsive, responsible bidder for new/retreaded tires for Newport News Public Schools. Subsequent orders may be requested on an as-needed basis. New tires must be delivered within twenty-four (24) hours of subsequent order, and retreaded tires must be available for delivery within a reasonable time (preferably less than 3 weeks) from tire pick-up.

2. Pricing

- a. Pricing for the requested items under this contract must be provided to NNPS in the format of the table in Attachment "C" Pricing Schedule. Additional pricing details may be submitted as a supplement to Attachment C. NNPS anticipates awarding a contract to more than one bidder to ensure a continual, adequate, and available timely supply of product.
- b. A completed copy of Bidder's bid submission, including Attachment "A", Attachment "B", Attachment "C", and Attachment "D", is to be completed and shall be submitted electronically via eVA. Failure to submit an electronic copy of bid, including all required attachments, may result in Bidder being declared non-responsive.

3. Use of Brand Names

- a. Unless otherwise provided in this solicitation, the name of a certain brand, make, or manufacturer does not restrict bidders to the specific brand, make, or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article which the public body, in its sole discretion, determines to be the equivalent of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The bidder is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts, and technical detail to enable NNPS to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make, or manufacturer specified. Normally in competitive sealed bidding, only the information furnished with the bid will be considered in the evaluation. Failure to furnish adequate data for evaluation purposes may result in declaring a bid non-responsive. Unless the bidder clearly indicates in its bid that the product offered is an equivalent product, such bid will be considered to offer the brand name product referenced in the solicitation.

4. Award

- a. Award shall be based on the lowest Total Extended Unit Price per pricing schedule lot. In the event of discrepancies, unit price shall prevail. In the event of discrepancies between eVA direct number entry bid submission (a.k.a. eVA pricing schedule grid) and eVA bid document upload submission, the document upload submission shall prevail.

5. Requirements Contract

- a. During the contract term, and any/all extensions, the contractor shall provide the goods/services described in the contract. The contractor understands and agrees that this is a requirements contract and that NNPS shall have no obligation to the contractor if no goods/services are required. Any quantities that are included in the scope of work reflect the current expectation of NNPS. The quantities indicated are an estimate only and NNPS is under no obligation to the contractor to buy any amount of the goods/services as a result of having provided this estimate or of having any typical or measurable requirement in the past. The contractor understands and agrees that NNPS may require goods/services in an amount less than or in excess of the estimated quantities and that the quantity actually used, whether in excess of the estimate, or less than the estimate, shall not give rise to any claim for compensation other than the total of the unit prices in the contract for the quantity actually required by NNPS.

B. Specific Requirements:

1. All tires shall be "Brand Name" tires stocked directly from manufacturer. Bidder shall be a manufacturer or authorized dealer/distributor of items quoted. "On-road" tires must be manufactured in the United States; for the purposes of this IFB, "on-road" tires are defined as "any vehicle/equipment that is licensed by the Commonwealth of Virginia and will travel public roadways" (i.e. cars, trucks, school buses, trailers, etc.).

 - c. Bidder shall provide detailed specifications documentation for each tire offered.
 - d. Bidder shall deliver tires of the sizes awarded within twenty-four (24) hours of order placement.  - v. Damage caused by abuse, curbing, collision, racing, accident, fire objection rub, vandalism, intentional alteration to change appearance.

NNPS will provide proof of date of purchase. Mounting and balancing charges shall be borne by the Contractor. After the replacement period, NNPS will be charged for the percent of original, useable, tread worn off the adjustable tire. NNPS will be responsible for any charges for mounting and balancing. To determine the replacement cost, the percent of usable tread worn off the adjustable tire is multiplied by the current predetermined price as established by this contract for tires.
 - g. In the event that a specified tire becomes obsolete, the bidder shall be required to buy back the unused obsolete tire(s) at the original purchase price.
 - h. All products offered and furnished shall be new, unused, and a standard first-quality product.

V. EVALUATION AND AWARD CRITERIA

A. Important Information:

1. The Bidder with the lowest price is not guaranteed award of this Contract. NNPS may cancel this IFB or reject bids at any time prior to an award and is not required to furnish a statement of the reason(s) why a particular quote was not deemed to be the most advantageous (*Code of Virginia* § 2.2-4359D). All quotes, detailed product specification sheets, and any other applicable attachments shall be submitted with your bid. Estimated delivery time and applicable delivery charges and any exceptions/alternatives will also be considered.

B. Bid Evaluation:

1. Pricing:
 - a. Pricing for the requested items under this Contract must be provided to NNPS in the format of the table in the pricing schedule attachment. Additional pricing details may be submitted as a supplement to the pricing schedule. NNPS anticipates awarding a contract to more than one bidder to ensure a continual, adequate, and available timely supply of product.
 - b. A completed copy of Bidder's bid submission, including the pricing schedule attachment, is to be completed and submitted electronically via eVA. Failure to submit an electronic copy of bid may result in Bidder being declared non-responsive. In the event a pricing schedule grid is posted in eVA for electronic completion, the pricing schedule attachment document shall also be completed and submitted. Failure to submit the pricing schedule attachment and only completing the eVA grid items may result in Bidder being declared non-responsive.
2. Use of Brand Names:
 - a. Unless otherwise provided in this solicitation, the name of a certain brand, make, or manufacturer does not restrict bidders to the specific brand, make, or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article which the public body, in its sole discretion, determines to be the equivalent of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, will be accepted. The bidder is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts, and technical detail to enable NNPS to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make, or manufacturer specified. Normally in competitive sealed bidding, only the information furnished with the bid will be considered in the evaluation. Failure to furnish adequate data for evaluation purposes may result in declaring a bid non-responsive. Unless the bidder clearly indicates in its bid that the product offered is an equivalent product, such bid will be considered to offer the brand name product referenced in this solicitation.

C. Award:

1. Award shall be based on the lowest Total Extended Unit Price per pricing schedule lot. In the event of discrepancies, unit price shall prevail. In the event of discrepancies between eVA direct number entry bid submission (a.k.a. eVA pricing schedule grid) and eVA bid document upload submission, the document upload submission shall prevail.

D. Contract Type:

1. During the contract term, and any/all extensions, the Contractor shall provide the goods/services described in the Contract. The Contractor understands and agrees that this is a requirements term contract. Any quantities that are included in the scope of work reflect the current expectation of NNPS. The quantities indicated are an estimate only and NNPS is under no obligation to the Contractor to buy any amount of the goods/services as a result of having provided this estimate or of having any typical or measurable requirement in the past. The Contractor understands and agrees that NNPS may require goods/services in an amount less than or in excess of the estimated quantities and that the quantity actually used, whether in excess of the estimate, or less than the estimate, shall not give rise to any claim for compensation other than the total of the unit prices in the Contract for the quantity actually required by NNPS. For requirements contracts, NNPS shall have no obligation to the Contractor if no goods/services are required.

E. Presentation/Demonstration:

1. If in NNPS' opinion, vendor presentations are warranted, NNPS will notify the appropriate vendors. Such presentation or demonstration shall be at a NNPS site at a date and time mutually agreed to between NNPS and Bidder and shall be at the Bidder's expense.

A cost reimbursement claim to NNPS shall not include any amounts for reimbursement of interest charges owed by Contractor.

CC. Payment by Electronic Funds Transfer (EFT):

1. Method of payment.

- a. All payments by Newport News Public Schools (NNPS) under this Contract will be made by electronic funds transfer (EFT) except as provided in paragraph 1.b. of this provision. As used in this provision, the term "EFT" refers to the funds transfer and may also include the payment information transfer.

 - i. Accept payment by check or some other mutually agreeable method of payment.
 - ii. Request NNPS to extend payment due dates until such time NNPS makes payment by EFT (see paragraph 4 of this provision).

2. Mandatory submission of Contractor's EFT information.

- a. The Contractor is required to provide NNPS with the information required to make payment by EFT (see paragraph 10. of this provision). The Contractor shall provide this information directly to the NNPS Accounting Department (hereafter referred to as "Accounting") *no later than 15 days prior to submission of the first request for payment*. 3. Mechanisms for EFT Payment.

- a. NNPS may make payment by EFT through the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association (NACHA).

4. Suspension of payment.

- a. NNPS is not required to make any payment under this Contract until after receipt, by Accounting, of the correct EFT payment information from the Contractor. Until receipt of the correct EFT payment information, any invoice or Contract financing request shall be deemed not to be a proper invoice for the purpose of prompt payment under this Contract.
- b. If the EFT payment information changes after submission of correct EFT payment information, NNPS shall begin using the changed EFT payment information no later than thirty (30) days after its receipt by Accounting to the extent payment is made by EFT. However, the Contractor may request that no further payments be made until the updated EFT payment information is implemented by Accounting. If such suspension would result in a late payment under the prompt payment provision of this Contract, the Contractor's request for suspension shall extend the due date for payment by the number of days of the suspension.

5. Liability for uncompleted or erroneous transfers.

- a. If an uncompleted or erroneous transfer occurs because NNPS used the Contractor's EFT information incorrectly, NNPS remains responsible for:
 - i. Making a correct payment.
 - ii. Paying any prompt payment penalty due.
 - iii. Recovering any erroneously directed funds.
- b. If an uncompleted or erroneous transfer occurs because the Contractor's EFT information was incorrect, or was revised within thirty (30) days of NNPS' release of the EFT payment transaction, and:

- a. A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this Contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

7. EFT and assignment of claims.

- a. If the Contractor assigns the proceeds of this Contract as provided for in the assignment of claims terms of this Contract, the Contractor shall require as a condition of any such assignment, that the assignee shall provide the EFT information required by paragraph 10. Of this provision to Accounting, and shall be paid by EFT in accordance with the terms of this provision. In all respects, the requirements of this provision shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to NNPS, is incorrect EFT information with the meaning of paragraph 4. of this provision.

8. Liability for change of EFT payment information by financial agent.

- a. NNPS is not liable for errors resulting from changes to EFT payment information provided by the Contractor's financial agent.

9. Payment information.

- a. Accounting will forward to the Contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. NNPS may request the Contractor to designate a desired format and method(s) for delivery of payment information from a list of formats and methods Accounting is capable of executing. However, NNPS does not guarantee that any particular format or method of delivery is available and retains the latitude to use the format and delivery method most convenient to NNPS. If NNPS makes payment by check in accordance with paragraph 1. of this clause, NNPS will mail the payment information to the remittance address in the Contract.

Addendum #3
FOR IMMEDIATE ATTENTION**

ADDENDUM NO. 3 TO ALL OFFERORS:

Reference – Invitation for Bids: **IFB# 020-0-2026/JP – New and Retreaded Tires**
For Delivery To: Newport News Public Schools
Bids Due: February 25, 2026 at 2:00 PM EST

The above is hereby changed to read:

- **Key Considerations and Clarifications:**

- IFB #020-0-2026/JP is referenced herein this addendum as “*This IFB*”.
- IFB #007-0-2026/JP is referenced herein this addendum as “*Previous IFB*”.
- *This IFB* is a complete and separate solicitation than that of previous, similarly scoped, not awarded, IFB 007-0-2026/JP. All documentation submitted must be in accordance with *This IFB* submission requirements.

- **Questions and Answers:**

1. On the 11R22.5 and the 255/70R22.5 Retreads. What is the 32nd tread depth requirements for the tires, and what type of tread design is requested for these tires?

Over 21/32nd. New tires shall be an all-position tire. Retread tires may be an all-weather drive design.

2. When supplying the school bus fleet with retreads, if the school is not generating casings fast enough to complete orders.. Will the school bus fleet be willing to accept equal brand casing replacement with retread or purchase new tires to supplement?

Yes, NNPS occasionally will buy casings as needed.

3. Insurance Requirements - In the previous IFQ 007-0-2026/JP, Addendum #1 clause D subsection 4, stated - i. Strike the Miscellaneous Errors and Omissions with Intellectual Property Rights Coverage, Including Copyright Infringement insurance requirement. ii. Change the Umbrella/Excess Liability insurance limit from \$5,000,000 to \$1,000,000. - Can we ask for the same amendments to be made to the new 020-0-2026/JP?

Please reference *This IFB* (020-0-2026/JP) page 20 (VII. E. 5. Minimum limits of insurance).

4. Shearography/Non Destructive Technology (NDT) - Goodyear uses a technology called "Non-Destructive Technology" in their retreading included in the documentation that was provided to the Contracting Officer. Will this process suffice for the shareography technology requirement?

Based upon the Goodyear documentation provided, NNPS will accept NDT from Goodyear as an equivalent to the shearography requirement. Statement of Needs, Page 6, Letter B, Specific Requirements, #1.p.iv is hereby changed to read "Retread process must include Shearography or an approved equivalent non-destructive, laser based, inspection technique before retreading." If any prospective bidder is providing an alternate to Shearography, the documentation detailing the type of technology shall be included as part of your bid submittal.

5. Trailer Tires Brand - In Lot 2, Lines 11 & 12 of the Pricing Schedule the request is for a bid of trailer tires, specifically. Due to unclear expectations on IFQ007-0-2026, I want to clarify that these tires must be manufactured in the United States and will have to follow the same requirements of the other products being bid. - All three bidders for IFQ 007-0-2026/JP, bid tires that were not made in the US, I'm assuming because the currently used product was also-not made in the US. This requirement can be the difference of being awarded or not awarded the lot.

NNPS will accept tires not manufactured in the United States for trailer tires only (Pricing schedule Lot 2, lines 11 and 12). All other tires shall be manufactured in the United States. Please reference *This IFB* (020-0-2026/JP) page 5 (III. B. 1. "On-road" tires must be manufactured in the United States; for the purposes of this IFB, "on-road" tires are defined as "any vehicle/equipment that is licensed by the Commonwealth of Virginia and will travel public roadways" (i.e. cars, trucks, school buses, trailers, etc.)).

6. Why was the first bid considered (NO AWARD)?

IFB 007-0-2026/JP was No Award due to lack of clarity in some sections.

7. Considering Colony Tire was the lowest bidder at the time how can it be fair at this point to our company when the previous bid results are public knowledge and the same bid is still open?

A public bid opening was held in accordance with *Code of Virginia § 2.2-4302.1*, Process for competitive sealed bidding, "The process for competitive sealed bidding shall include the following:" paragraph 3. "Public opening and announcement of all bids received;". A bid tabulation was not published for *Previous IFB* 007-0-2026/JP. The same bid is not still open as the scope of work has changed from the *Previous IFB* to *This IFB*, such as requirement for tires to be manufactured in the United States, a requirement for bidders to be an authorized dealer or manufacturer of the tires to be provided, changes to the required documents to be submitted, changes to the pricing schedule document, etc.

All other provisions of the IFB shall remain unchanged.
